

BLAISE 4.8.2 INTERNET

IBUC 2010 – Pre Conference workshop

WHAT'S NEW

- Improved installation
- Extended functionality of Components
- Flexible external files

IMPROVED INSTALLATION

- Installation of web survey:
 - Copy required files
 - Generate interview pages: determines installation time
- Reduce time to generate interview pages:
 1. Generate in advance: include pages in package
 2. Reduce number of pages:
 - Exclude: Layout sets, Languages, Parallels
 - Useful for Multimode instrument
- Log all installation actions:
 - Allow to monitor changes to Server Park

EXTENDED FUNCTIONALITY OF COMPONENTS

- More advanced programming of web surveys:
 - Inspect Submitted Data
 - Modify Session Data
 - Inspect and modify Data files
- Extended Components:
 - Page Handler
 - API Service Component
- Demo

FLEXIBLE EXTERNAL FILES

- Default web survey:
 - External files are copied to each Rules Server
 - Not ideal
- Better: External files on Data Server
 - Only one copy of external data
 - External data not on Web Server
- Flexible external file:
 - Specify non-existing .boi-file in Datamodel
 - Specify real database in Interview Specification
 - External .boi-file: will be generated by installation
- Demo
